2. Scientific approach
3. Honesty
4. Continuous professional development

### Functions:

1. Cooperation with universities and governmental institutions in the countries of Eurasia.
2. Preparation of academic and student exchange programs.
3. Organization of joint scientific and educational activities in cooperation with the countries of Eurasia.
4. Preparation of multicenter research projects.
5. Analysis of the health care infrastructure in the countries of Eurasia.
6. Preparation of social responsibility projects in the countries of Eurasia.

### Main activities:

1. Preparation of protocols on cooperation with universities and governmental institutions in the countries of Eurasia.
2. Preparation of curriculum in cooperation with universities and educational institutions in the countries of Eurasia.
3. Enabling students who completed the first three years of medical school in their country to complete their education at our university.
4. Organization of Turkish language courses for foreign students who will be trained at our university.
5. Organization of congresses, symposiums, panels, seminars and training courses both in Turkey and in the countries of the Eurasian region.
6. Opening of vocational colleges in the framework of protocols on cooperation.
7. Organization of activities within the "Weeks of Health".
8. Determination of priorities in cooperation with the Ministries of Health.

9. Development of projects in the field of health and social responsibility in cooperation with embassies, consulates and TIKA (Turkish Cooperation and Development Board).

#### **Goals and objectives:**

1. Conduct an analysis of the health care infrastructure in the countries of the Eurasian region.
2. Provide the necessary infrastructure support in accordance with identified needs.
3. Organize cooperation with Eurasian research centers, institutes and universities that provide education in the field of health and social sciences.
4. Inform the public, authorities and non-governmental organizations about the state of affairs in the health and social spheres in the countries of the Eurasian region.
5. Bring to the attention of the competent authorities and institutions information on activities, statistical and field research and surveys conducted in the field of health in the countries of Eurasia.
