

## About ECTS

European Credit Transfer System (ECTS) refers to the entire range of valid and accepted procedures developed by the European Commission, which ensures that course credits students receive and are successful are transferred from one higher education institution to another.

As an academic equivalency system, ECTS' main aim is to maintain mutual recognition of exchange students' academic achievements in different education institutions of different countries.

ECTS is a student oriented credit system based on the workload of the student. ECTS credits are quantitative values of workload which the students need to complete in order to achieve expected learning outcomes. ECTS is based on the principle that 60 credits measure the workload of a fulltime student during one academic year.

Workload indicates the time students typically need to complete all learning activities (such as lectures, seminars, projects, practical work, self-study and examinations) required to achieve the expected learning outcomes.

### Estimating ECTS

30 ECTS= Half Year

60 ECTS= Full Year

1 ECTS = 30 hours of work

At Sağlık Bilimleri Üniversitesi 1 ACTS corresponds 30 Hours of workload

At Sağlık Bilimleri Üniversitesi student workload is about 1,800 hours for an academic year (900 for Half year-Semester)

### Course Achievement Grade

One of the letter grades is awarded to the students for their success in the courses they take and these grades are called course success grades. The responsible instructor must declare the course assessment, and evaluation criteria at the beginning of the semester to the students and notify the department chair in writing. Announced success grades are described as follows:

Grades	Coefficients	Score
AA	4.00	90-100
BA	3.50	80-89
BB	3.00	70-79
CB	2.50	65-69
CC	2.00	60-64
DC	1.50	55-59
DD	1.00	50-54
FD	0.50	40-49
FF	0.00	39-00

A student who receives one of the grades AA, BA, BB, CB and CC is deemed to have completed the course.
